

Stereo AUX Flat Angled Cable

Listen tangle-free. Perfect for travel.

The Stereo AUX Flat Angled Cable lets you connect your favorite media device to a car or home speaker system. It works with any device that has a 3.5mm auxiliary port, including smartphones, MP3 players, media players, tablets, and laptops.

Frequent travelers will appreciate the cable's right-angled tip, which places less stress on the cable and helps prevent the cable from disconnecting accidentally. This flat silicone cable is designed to prevent tangling and is easy to store.

Premium gold-plated connectors provide superior signal transfer, giving you the rich acoustic experience your ears crave. You never have to worry about damage to the connectors – the gold-plated tips are corrosion-proof, providing maximum conductivity.

Key Features
