

C30

Mini DisplayPort to Dual-Link DVI

- Converts your Mini DisplayPort equipped Mac to any monitor or high-resolution display
- Provides more stunning video up to 2560x1600 pixels
- Compact-size and lightweight-build

Works with 30-inch Apple Cinema Display

Get faster and higher-quality picture than standard single-link DVI with the Kanex C30. The additional bandwidth supports a stunning 2560x1600 maximum resolution; perfect for those massive 30-inch displays.

A bigger display for your work space

Use your 30-inch monitor or multi-display set-up with your Mac where additional desktop space is needed. The more space you have to work with, the easier it becomes to efficiently multi-task.

Power from within

Don't bother with cumbersome power supplies that take up space. The Kanex C30 includes a USB connector for power. Simply plug and play, it's that simple.
