ETHERNET PORT

The Kanex USB 3.0 to Gigabit Ethernet Adapter adds a Gigabit Ethernet port to your USB 3.0 enabled MacBook Air or MacBook Pro with Retina Display and provides a wired connection to access the Internet or network for sharing files at SuperSpeed transfer rates.

Quick and Easy

Set-up is easy. Simply connect an Ethernet cable to the Kanex Gigabit adapter then plug into the USB 3.0 port of your MacBook Air or MacBook Pro with Retina Display. Now you're connected to the network or the Internet!

Travel

Perfect for business or travel where Wi-Fi is limited such as hotel or conference room, this compact adapter is ready to go when you are. The Kanex USB 3.0 Ethernet adapter is bus powered through USB, therefore no external power is required.

Versatility

This versatile little adapter is also backwards compatible with USB 2.0 and USB 1.1 so you'll be ready for an upgrade when your computer is.
