

# USB-C™ > VGA Adapter

8.25"  
21CM

## Connect a Projector or Display to Your new MacBook

The Kanex USB-C > VGA Adapter lets you expand your new MacBook's screen onto a VGA supported display, computer monitor or projector. It's the perfect adapter that supports sharp resolutions from your USB-C output to VGA. This adapter is designed with portability in mind.

## Perfect for Presentations

Display your presentations on any VGA equipped display with our USB-C > VGA Adapter. Many projectors and displays continue to utilize the VGA interface. It's a simple plug and play solution.

## Maximize your Productivity

Add a second monitor or mirror your display to increase productivity. Having that additional workspace improves multi-tasking and increases efficiency at work or at home. With the USB-C > VGA Adapter you can play video game on a larger screen, enjoy your favorite movies, TV shows, or photos in full 1080p.
