

iAdapt[®] DisplayPort™ to Dual HDMI Adapter with 4K Support

- Connect two additional HDMI monitors to a computer
- Features the latest DP1.4 spec
- Supports up to MST dual HDMI 4K/60Hz resolution output
- Compatible with any DisplayPort equipped host devices and HDMI equipped displays.
- Plug and Play.

Dual Display

Easily connect your DisplayPort-equipped computer to two external HDMI monitors with up to 4K resolutions each.

Supports Dual 4k @ 60Hz without compression

Standards compliance/support: HDMI 2.0, DisplayPort™ v1.4, DisplayPort™ v1.1a, VESA DDM Standard, HDCP v2.2, DisplayID, and EDID v1.4

4K @ 60Hz

DisplayPort™ powered devices can deliver digital content at resolutions above Ultra HD, the highest available from a single A/V connector. This makes it ready for future applications, including VR and 4K HDR displays.
