simpleDock™

3-Port USB 3.0 Hub, Gigabit Ethernet and Charging Station

Ethernet

Card Reader

Printer

Laptop

USB Drive

Power Port
Kanex simpleDock's 3-in-1 solution provides you with a fast networking experience, mobile device charging and access to everyday USB devices. The hidden cable management design keeps your desk organized. Place your smartphone on the dock for charging and syncing while staying connected to the host system.

Connecting Your Laptop Has Never Been Easier
Perfect for the home or office, simpleDock makes it easy to connect the peripherals and mobile devices you use everyday. Simply plug in your USB hard drive, printer or card reader for an instant connection. For access to a reliable, wired network connection, use the Gigabit Ethernet adapter - all while charging your smartphone.

Park and Charge Your Mobile Device
The dedicated charging port delivers 2.1 Amps of power to charge your smartphone and tablet. The innovative design keeps charging USB cables hidden, and serves as a desk valet to keep your smartphone within reach.

3 x USB 3.0 Ports   Dedicated 2.1 Amps Charging Port   Gigabit Ethernet

Add Three SuperSpeed USB 3.0 Ports
Turn one port into three . The USB 3.0 ports allow super-speed data transfers of up to 5 Gbps and are backward compatible with USB 2.0

Simply Beautiful
simpleDock's unique, horizontal design takes up minimal space on your desk. It can charge your smartphone or serve as a desk valet. The zinc alloy material matches perfectly with your MacBook and provides a solid desktop docking station.

Requires driver installation for Gigabit Ethernet. The driver available on kanexlive.com/simpledock.
