OS X iOS

Travel Ready

The MultiSync Mini Keyboard can be paired with any Bluetooth 3.0 enabled device. It is wireless so you can use it with your Mac or PC in your home office or take it to the kitchen and sync to your iPad. Thanks to its compact size, it can be carried around with ease and stored away in your laptop bag or suitcase for your next adventure.

Quick Switching

Simply hold down the "Fn" button and toggle through multiple devices by pressing 1, 2, 3 or 4. Just pair your devices and start typing. Bluetooth technology means you don't have to take up valuable USB ports with wireless receivers. Setup is easy and no installation or drivers are required.

Premium Design

Designed for a comfortable typing experience and to look great on your desk. The look and feel of premium stainless steel complements your Mac products.

Mac Key Layout

All of the familiar Mac keys and shortcuts are here. Effortlessly adjust screen brightness, volume, play and pause with single touch focus keys.

Born From the Best

There's a reason our customers call our original MultiSync Bluetooth Keyboard the "best Bluetooth keyboard in the market" and "best Mac keyboard" available anywhere. We are passionate about connectivity, performance, and bridging the gap between technology and your daily needs.
