USB-C™ to Gigabit Ethernet Hub with Power Delivery
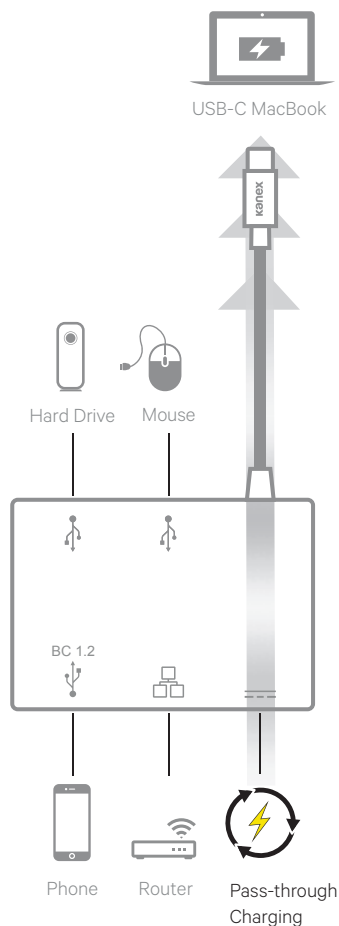

* Instant high speed Ethernet access
* Adds a Gigabit Ethernet port and a USB port to your USB-C MacBook®
* Supports pass-thru charging with Power Delivery up to 60W
* Compact portable design

PLUG & PLAY

USB-C MacBook

Hard Drive   Mouse

BC 1.2

Phone   Router   Pass-through Charging

The Kanex USB-C to Gigabit Ethernet Hub with Power Delivery gives you instant high speed Ethernet access. It adds an extra high speed USB port to your MacBook to connect peripherals and charges it simultaneously with power delivery. With data transfer speeds of up to 5 Gbps and a compact portable design, this versatile adapter will become an essential tool to your everyday workstation.

Expand & Power Your MacBook

Power delivery pass-thru charging allows your MacBook to charge while connected to the hub, so you don't have to worry about losing power while you're working. The Ethernet port gives you a direct, hard-wired connection to high speed internet.

Rapid Transfer

The SuperSpeed USB 3.0 port is compatible with practically all your current devices. Just plug and play. With data transfer speeds of up to 5 Gbps, your hard drives will be working at peak condition. It's also backwards compatible with USB 2.0.

Premium Portable Design

Lightweight and compact, the The Kanex USB-C Gigabit Ethernet Hub with Power Delivery was designed to go anywhere you do. The brushed aluminum housing is not only durable but looks great with your Apple devices.
