

# Thunderbolt™ to Gigabit Ethernet + USB 3.0 Adapter

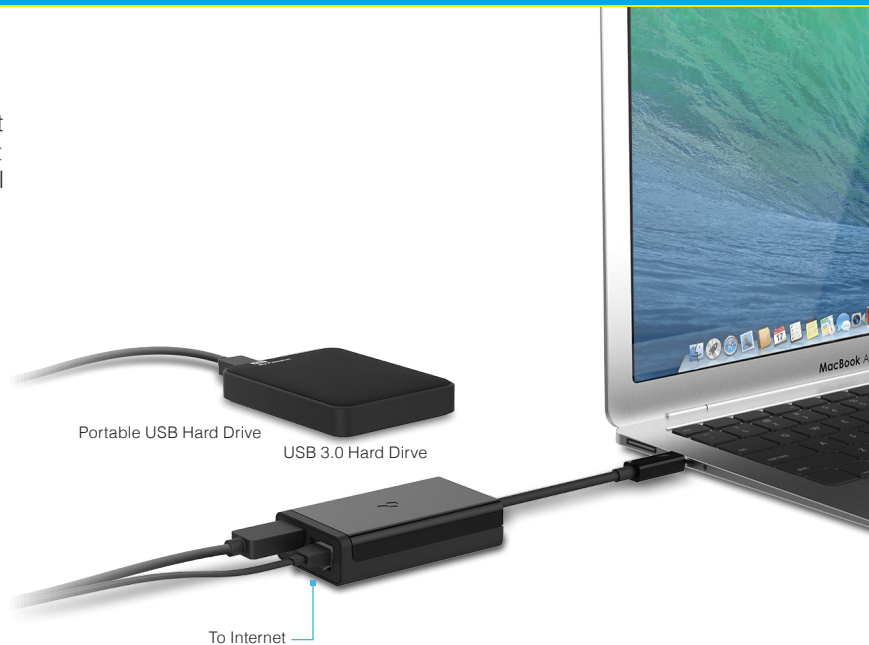

Supports both Gigabit Ethernet and USB 3.0 interfaces for greater compatibility

The Kanex Thunderbolt to Gigabit Ethernet + USB 3.0 Adapter lets you easily connect to a reliable, high-speed Gigabit Ethernet network. Small and compact, it connects to the Thunderbolt port on your Mac or PC computer and provides an RJ-45 port as well as an extra SuperSpeed USB 3.0 port.

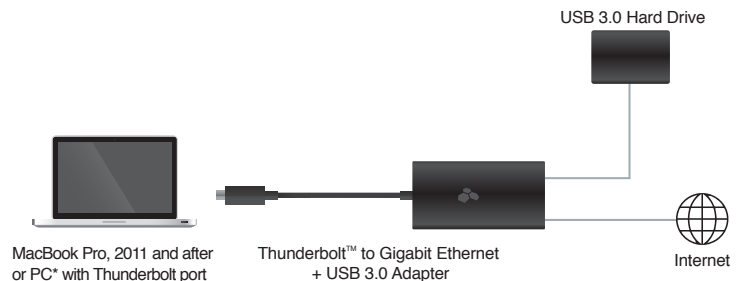

## Connections on the Go

If you're on a business trip and staying in a hotel where Wi-Fi is limited, this compact adapter is ideal when you need a reliable Internet connection. And because it's bus powered, you won't have to carry any extra power adapters, so it easily packs away for any trip.

## Plug and Play\*

Set-up is easy. Simply connect an Ethernet cable to the Kanex Thunderbolt adapter, and then plug into the Thunderbolt port of your Mac. Now you're connected to the network and the Internet! Use the extra USB port to connect extra peripherals. It can even charge and sync your iPhone!
